

A sea adventure – experience the wilderness, calmness and beauty of our backyard!

Fishing is great fun and nature is fabulous! This is something we would like to convey to the whole world – this is our hallmark!

Sjö & Havsguiderna has been in the guiding business for sea fishing for more than 10 years. The guides themselves are renowned fishers and have won numerous fishing contests. The company has an active approach to sustainable fishing and the guides are trained in nature friendly tourism. Let them help you choose accommodation and combine transportation with an amazing fishing experience. www.sjohavs.se.

An entire day at sea with a focus on fishing and nature

adventuring. We pick you up at agreed place at 8:30, heading toward the best spots for fishing after a security briefing and the handing out of lifejackets and coveralls. During the day, we will stop at an island for lunch which will be prepared over an open fire on a murrikka or barbeque. Coffee, soft drinks and water will be provided during the transport. You will need to take sturdy shoes and be dressed according to the weather while we provide all equipment related to fishing. We will be back at the jetty by 16:00. It is also possible to divide a larger group in two, one who go out in the morning and one in the afternoon with a joint lunch for all.
